[REDACTED]

Good Afternoon All,

Attached is the video of the service member striking my son, who went unconscious, and if you zoom in you will see the service member laughing as my son cries. Numerous leaders have seen this video, including the Garrison Commander Col Bowling.

As a result of the multiple incidents of abuse at the hands of the service member my son has endured, he now has a developmental delay. Just months prior he had strangled me to the point of unconsciousness.

I am not sure who asked for a request for assistance (it was not me), however, it is a conflict of interest for NGB to be conducting an IG investigation as it has already been addressed to a congressman's office by MDW legal on official letterhead.

It is also concerning that your office would be conducting this investigation given the fact there are branch chief's, COL's from NGB, as well as Generals listed as offenders and in allegations of adultery, drug abuse, racist comments, fraternization, video evidence of child abuse, dereliction of duty of leaders to ensure victims protection since August 2022.

Furthermore, it is also concerning that an interview would be conducted conveniently after CPT Jose Moreno is believed to be honorably discharged from the Army this week or next week after Felony strangulation and child abuse charges and no contest deferred findings, a current guilty conviction of a violation of an MPO and CPO in Arlington after he went out drinking with Major Alpa Landani and other personnel.

Despite my pleas for the military to ensure my safety and my son that has not happened. He is currently under a CPO for family domestic abuse and he is believed to have been permitted to resign his commission without consequence from the military.

Despite promises made the victims would be afforded transitional compensation and a court martial. I was purposely denied special victims' counsel and any support through the military to ensure my voice could not be heard.

I respectfully went through every layer of command and IG and my pleas are falling on deaf ears. Family Advocacy has exhausted all efforts to ensure my safety and no one in the chain of command or legal team has provided updates or responded to them.

It is apparent the Army leaders who have been handling this case do not take domestic violence or the NDAA seriously.

I respectfully ask that you refer this case back to the DODIG or to another department that will properly conduct an investigation as the congressman's office is aware NGB should not be and would not be conducting any IG complaints or

investigations as this was previously addressed due to the massive issues and discrepancies that failed to be addressed back in July- December 2022.

My son's father assured me he would resign his commission and kill me and kill himself, sadly I believe the military will allow this to happen.

The first phase of his plan is already in motion. I do not want to be the next Vanessa Guillen. Please take action to actually investigate this situation and leaders who failed to uphold the army values and law.

Respectfully,

 Jane Doe
